Hosur, Krishnagiri

PROFILE

Final-year Information Technology student passionate about software engineering and problem-solving. Skilled in Java, Python, and full-stack web development with the MERN stack, with hands-on experience in developing scalable web applications.

SKILLS

- Programming Languages: C, Java, Python
- Databases: SQL
- UI/UX: UI/UX Design, Figma
- Soft Skills: Problem Solving, Critical Thinking, Teamwork

EDUCATION

B.Tech – Information Technology

Bannari Amman Institute of Technology

SEP 2023 - PRESENT

CGPA: 7.66

Higher Secondary Certificate (HSC)

2022 - 2023

Maharishi Vidya Mandir Senior Secondary School

Percentage: 81.3%

Secondary School Leaving Certificate (SSLC)

2020 - 2021

Blossom Matriculation School

PROJECTS

SMART-LEARNING EXCHANGE

Technologies: MERN Stack

- Built a peer-to-peer knowledge sharing platform with real-time chat and video features
- Developed a responsive user interface for seamless learning interactions
- Implemented secure authentication and a scalable backend to support multiple users
- Designed a rating system to improve content credibility and user engagement

CampusReserve

Technologies: MERN Stack

- Developed a role-based web application for managing college resource bookings.
- Implemented booking approval workflows and real-time tracking of resources.
- Added automatic conflict detection to prevent overlapping reservations.
- Managed classrooms, labs, seminar halls, and movable resources centrally.

AREAS OF INTEREST

- Full-Stack Development
- Computer Networks (CN)

CODING PLATFORMS

- **LeetCode:** Solved 400+ problems
- **HackerRank:** Python(Gold Badge), C(Silver Badge)
